EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Edward Langer on 11/28/2005.

2. The application has been amended as follows:

- Claim 18 has been replaced by the following:

--18. Apparatus for digitally building up flexographic plates, comprising:

a plate substrate for receiving a matrix floor;

curing means for curing said matrix floor;

an imaging surface adjacent said plate substrate;

inkjet imaging means adjacent said imaging surface for ink-jetting an image onto said imaging surface according to pre-stored data;

UV exposing means for gelling said image;

transferring means for transferring said gelled image to said matrix floor; and

bonding means for bonding said gelled image with said matrix floor, said gelled image being adapted to receive ink for printing on a print medium.--

- In the specification, page 1, after "fluid" in line 2, the following new line 3 has been inserted:

--This application claims priority to U.S. Provisional Application No. 60/436,009, filed on Dec. 26, 2002.--

3. The above changes to claim 18 have been made in order to patentably distinguish the claim from the prior art of record.

4. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowability of claim 18 is the limitation of a plate substrate for receiving a matrix floor, an imaging surface adjacent said plate substrate, inkjet imaging means adjacent said imaging surface for ink-jetting an image onto said imaging surface according to pre-stored data, transferring means for transferring said gelled image to said matrix floor, where said gelled image is adapted to receive ink for printing on a print medium, in combination with the other claimed language.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
